

I understand that there is the potential that K-LOVE radio may be losing its FM translator service.

As a supporter of K-LOVE, I respectfully request that this not happen.

K-LOVE serves as a vital media for communicating to our Austin community in a way that could not happen without them.

If K-LOVE were to be displaced by an LPFM broadcaster, we would miss the opportunity to reach out to literally thousands of people.

I believe that K-LOVE provides a vital public service to the Austin community by providing programming

that is safe for all family members to listen to and encourages good stewardship, kindness, generosity and many other attributes that I'm sure all communities would want to develop among their residents.
